TUTORIAL: AUTOMATICALLY ANALYZING LABORATORY DATA TO CREATE A PERFORMANCE MAP

How to Write Scripts That Check Data Quality For You

Peter Grant

Follow

Jan 1 · 9 min read ★

Python scripts can check your laboratory data for errors, sans boredom and tedium

It's very common that scientists find themselves with large data sets. Sometimes it comes in the form of gigabytes worth of data in a single file. Other times it's hundreds of files, each containing a
